Xu Wan

@ wanxu@zju.edu.cn

I am an AI Researcher at ByteDance Seed Robotics and received my Ph.D. from Zhejiang University in June 2026, advised by Prof. Mingyang Sun. My research focuses on **robot use agents, LLM post-training, and scalable and safe reinforcement learning**. I have **20+ published or accepted papers**, including **12 first- or co-first-author CCF-A papers** (NeurIPS, ICLR, ICML, etc.).

Education

Jun. 2026 Sep. 2021	**Zhejiang University** Ph.D. in Control Science and Engineering •**National Scholarship** •**Tencent Scholar**
Jun. 2021 Sep. 2017	**China University of Geosciences (Wuhan)** B.Eng. in Artificial Intelligence •GPA: **2/182** •**National Scholarship** •Academician Scholarship

Work Experience

Present Apr. 2026	**ByteDance** •**Seed Robotics** • AI Researcher Agentic Robotics • Embodied VLM
Feb. 2026 Oct. 2025	**Tencent** •**HY Team** • Research Intern Code Agent • Efficient CoT • Multi-turn RL
Sep. 2025 May 2025	**ByteDance** •**Seed Robotics** • Research Intern LLM Reasoning • RLVR • Spatial Reasoning
Mar. 2025 Dec. 2023	**Alibaba** •**DAMO Academy** • Research Intern LLM-assisted RL • Multi-agent RL

Selected Publications

* denotes equal contribution; # denotes corresponding author.

LLM Post-training

- **Xu Wan**, Wenyue Xu, Shengjie Zhao, Mingyang Sun, Mitigating the Length-Scaling Tax with Online Distillation. **arXiv 2026**
- Jiashun Liu*, Runze Liu*, **Xu Wan***, Jing Liang*, Hongyao Tang, Ling Pan†, Reformulate LLM Reinforcement Learning for Efficient Training under Black-box Discrepancy. **NeurIPS 2026**
- **Xu Wan***, Speed Zhu*, Jiawei Cai, Guang Chen, Ximing Huang, Wiggin Zhou, Mingyang Sun, The Shadow Price of Reasoning: Economic Perspective on Optimal Budget Allocation for LLMs. **ICML 2026**
- Chao Shen*, Zihan Guo*, **Xu Wan***, Zhenghao Yang, Yifan Zhang, Wengi Huang, Jie Song, Zongyan Zhang, Mingyang Sun, ProOPF: Benchmarking and Improving LLMs for Professional-Grade Power Systems Optimization Modeling. **ICML 2026**
- Yifu Luo, Haoyuan Sun, Xinhao Hu, **Xu Wan**, et al., Principled RL for Flow Matching Emerges From the Chunk-level Policy Optimization. **ICML 2026**
- **Xu Wan**, Wenyue Xu, Wei Wang, Wotao Yin, Wenqi Huang, Shengjie Zhao, Mingyang Sun, AdapThink: Adaptive Thinking Preferences for Reasoning Language Model. **ACL 2026 (Findings)**
